Wheat Trading Starts Out Promisingly, but Activity Not Sustained.

HEAVY DOMESTIC RECEIPTS THE CAUSE

Corn and Oats in the Doldrums, Extreme Lassitude Appearing to Have Seized Market-Provisions Are Strong.

CHICAGO, June 28 .- Domestic crop damthe wheat market today, but trade was on Staple and Fancy Produce. the wheat market today, but trade was small and the market closed at an advance of only %c. Corn declined %u%c under heavy receipts, oats advanced 16c on buillsh foreign advices and provisions advanced 252

6715c with the advance in hogs. Conditions at the opening in wheat fa-vored higher prices. Liverpool showed a liberal response to yesterday's advance here, opening %9%d higher and maintaining most of its advance. Continental mar-kets were also higher. A decided buillish feature was the falling off in northwest receipts, Minneapolis and Duluth reporting arrivals of 491 cars, compared with 713 last week and thirty-two a year ago. Chicago receipts were 152 cars, twenty-one of conreceipts were 152 cars, twenty-one of contract grade. This was in line with the predictions made by the northwest yesterday and influenced the market enough to keep prices on the upgrade for about half an hour after the opening. Then the weakness at St. Louis, which was thought to be due to expectations of large receipts of new wheat in the near future and favorable weekly crop reports, started a moderate welling movement, which carried prices concluderably below the opening point and gave the old familiar appearance of weakness to things in general. September opened at 74½ 674%c, compared with yesterday's closing price of 74%c. It advanced to 74½ 74%c, then gradually slid off until 74%c had been reached. At this point the market took another turn and until within about haif an hour of the close, though extremely quiet, was strong. St. Louis' weakness was said to be due entirely to local elevator difficulties and not to fear of heavy new wheat receipts. The chief element of strength came from the part of the country which has been responsible for most of the weakness of late, the west and northwest. Crop advices from all sections of the spring wheat country told of damage from rust and from wet weather, followed by the heat of last Sunday. The Hilmois state report estimated 51 per cent of the crop lost and the condition of the rest only 33 per cent. The natural inclination of the market to raily was enhanced by these reports. Covering by shorts and investment buying continued until September had advanced to 744,075c, when a realizing movement set in which continued to the close, and which cut away a good part of the advance. Aggregate primary receipts were 972,000 bu, against 82,000 bu a year ago. Atlantic port exports were 268,000 bu. The seaboard reported thirty loads taken for export today. September closed steady at 74%c.

Corn was dull and heavy. The market started an amount of liquidation that the market could not stand up under. Clearnness were light and the cash demand poor. September ranged from 344,03 tract grade. This was in line with the pre-

market could not stand up under. Clearances were light and the cash demand poor.
September ranged from 344/634%c to 34%c
and closed %6%c lower at 34%c.
Oats was exceptionally dull but firm.
Crop bulletins reported damage from drouth
in eastern states and too much moisture in
the west. Foreign advices were also bullish. There was some July demand from
shorts. Recelpts were 248 cars. September
ranged from 21%c c 21%622c and closed 4c
higher at 21%621%c.
Provisions, though dull were strong. Hog
prices were higher, and this with the
strength of wheat and the good shipping demand kept prices firm and a little higher.
Trading consisted mostly of changing from
July to September. At the close September
pork was 567%c higher at \$4.25/68.45. September lard 5c higher at \$3.22½ and September ribs 2½676c higher at \$4.2964.92½.
Estimated receipts Thursday: Wheat, 125
cars; corn, 1,060 cars; oats, 230 cars; hogs,
38,000 head.

Cotton Market.

Cotton Market.

LIVERPOOL, June 28.—COTTON—Spot, good business done; prices hardening; American middling, 3 15-15d. The sales of the day were 15,000 bales, of which 2,000 bales were for speculation and export, and including 14,500 bales American; receipts, 5,400 bales, all American. Futures opened steady, with a moderate demand, and closed barely steady. NEW YORK, June 28.—COTTON—Traders in cotton futures were naturally inclined to go slow, in anticipation of the holidays so near at hand, and today's market was a narrow one, even the more active positions working within a range of 3 points. The market opened steady at 1@2 points advance, early cables giving considerable confidence, especially as to the excellent showing in the way of spot business ki Liverpool, with prices indicating a good foreign demand for actual cotton wanted for large orders extending well into the future for cloths and yarns. Soon after the call, however, the market weakened under later cables, which indicated a disposition to liquidate long interests in the Liverpool market under the bearish influence of fine crop prospects in this country. Prices declined 4@8 points from the best figures, but the British contingent was not aggressive, the short interest being already extensive at low sprices, while the poselbility of a scrious change in the crop outlook at this critical season was recognized. Beneficial rains were reported for northern Texas and central sections of t extensive at low prices, while the possibility of a serious change in the crop outlook at this critical season was recognized. Beneficial rains were reported for northern Texas and central sections of the cotton belt, with temperature normal and unfavorable to a rapid and substantial development of the crop. On this account sentiment on 'change was cautiously bearish. The market closed barely, steady and 3@6 points lower. Wool Market.

LONDON, June 23.—There was a full attendance of buyers at the wool auction siles today. Continental operators were more active and competed for merinos, the home trade spiritedly establishing an advance of 7½ per cent and occasionally exceeding that figure. Tasmanian wools were in strong demand, and good South Australia and West Australians were sold principally to the home trade at from 7½ to 10 per cent. Fine cross-breds sold readily at the opening rates. The sales of the day were as follows: New South Wales, 4,000 bales; scoured, is@is 11½d; greasy, 7d@is 1d. 16 bucks 125 3\(\pi\_6.50\) Cows and heifers were in small supply and good dry lot stuff was very scarce. The market on that kind of cattle was fully active and the offerings changed hands early in the morning at prices that were entirely satisfactory to holders. Buils also sold well. It is remarked that the buil trade is exceptionally good this season so far, and the prices paid for both stock and fat buils comparatively high, as will be noted from the sales published from day to day.

TRENTON. N. J., June 28.—Attorney General Gray this morning filed an opinion with the secretary of state advising the refusal eral Gray this morning filed an opinion with the secretary of state advising the refusal of the articles of incorporation of the American Isthmus Ship Canal company. The articles provided for an authorized capital of \$30,000, with the provision that the capital stock might be increased to \$250,000,000 by a vote of the holders of not less than three-fourths of the capital stock. This proviso is in conflict with the New Jersey statute, which gives to the holders of two-thirds of the capital stock the power to increase the authorized capital. The secretary of state will later in the day return the papers to will later in the day return the papers to the company. The company was intended to be incorporated here to build a ship canal across the 1sthmus of Panama. Those named as incorporators were. Henry Leeds, W. C. Merriam and Juan A. Smith of Jersey

Wholesale Men Combine.

CHICAGO, June 28.—A combination similar to that recently organized by lows Job-bers is said to have been formed by some of the most prominent wholesale grocers of Minnesota for the purpose of buying goods in large quantities and thus placing themselves to a position butter to compete with selves in a position better to compete with Chicago concerns. Full details of the new organization, of which Mr. Cooper of Griggs. Cooper & Co. of St. Paul is said to be the prime mover, have not yet been decided upon. It is asserted that the combination will reduce expenses materially by dismissing about half the traveling men employed by the individual houses.

Snilbont Drifts Helplessly.

CHICAGO, June 28.—A tiny sailing yacht, compass gone and all knowledge of direction lost by the crew of three, drifted all last night on Lake Michigan, capaizing just as help was at hand. Thurman Malone of Cincinnati went to the bottom with the boat, while Seth P. Warren and Lou Biederman, his companions, were today rescued with difficulty by the steamer City of Chicago. As the steamer approached the sailboat turned over and sank, but Warren and Biederman managed to swim till assistance arrived. The men had attempted to sail from Chicago to Waukegan, but the loss of the compass left them helpless.
